How does it work

We've created a range of buying routes to help you plan your cinema campaign and effectively engage your target audiences. As well as being able to plan and buy cinema campaigns by film, by showing, by audience or by cinema, we've created these routes to help you align with key genres, categories and broad cinema audiences throughout the year.

The film may be the main event, but it's the overall experience that makes cinema an advertising medium like no other. Through our digital cinema portfolio you can engage cinemagoers at every stage of the cinema experience to ensure your campaign stays with them before, during and after their trip to the movies. Be it in the foyer, online or on the big screen, all of these touchpoints add scale and frequency to your campaign.

Optimise your campaign

JMM offers a wide range of opportunities for brands looking to maximise the impact of cinema beyond the realms of the traditional on-screen ad. Whether it be in the foyer or the ad reel, the best creative solutions and tool to capture the imagination of the audience are right here.

3D & 4D COMMERCIAL

The use of 3D and 4D technology is the latest way to make your commercial jump off the screen. 4DX / MX4D is a revolutionary cinematic experience on a four-dimensional level. The special 4DX/MX4D theaters have twenty effects, including moving seats, weather simulations and even scents, that are synchronized with the action of the film.

SAMPLING

By deploying promotion teams and sampling campaigns, you can actively bring your brand or product to the attention of the cinema visitor. There is room for promotions both in the foyer and at the exit of the halls. By deploying sampling teams, the target group can try the products immediately, which often leads to a purchase if the experience is positive.

LADIES NIGHT

The most selective cinema night of the month. About 10 times a year you can advertise in the cinema at the Ladies Night, an evening with women only. This special cinema evening enables you to reach the female target group at the perfect moment: having fun with friends.

Optimise your campaign

PRODUCT PLACEMENT

With product placement, the cinema becomes an extension of your showroom. Placing stands, standees or demo consoles is all possible in most of our cinemas.

STICKERING

With stickering it is possible to reach the target group before the film starts with specific brand expressions. Floor stickers or decals of the side of the escalator are possible.

AUTOMOTIVE

The placement of a promotional passenger car is possible in some of our cinemas. This form of product placement is ideally suited to introduce the release of a new car.

HEADBANNERS

The use of headrest covers for the cinema seats is possible in all our cinemas and can be purchased per week. The banners can be used per cinema and per hall.

LIVE COMMERCIALS

A unique phenomenon in the cinema is the live commercial. A live commercial combines your commercial on the big screen with a real live show in the cinema, a live act.
